Preface

This learner's research book has been written in line with the revised C.R.E syllabus for the new lower secondary curriculum.

The main reason as to why We have written this book, is to make research easier to learners as they are making their own notes in C.R.E. Therefore, this is a detailed research book for the new revised C.R.E ordinary level syllabus.

This research book has been written in a Simplified way to help students read and understand the competence based christian religious education on individual basis as they are coming up with their own notes. Therefore, learners understand key concepts and apply them in real life.

This learner's research book is one of the materials which are to be used to support the teaching and learning process of the new lower secondary curriculum.

Lwanga Books Ltd feels confident that this Book will be of immense value to both the learners and the teachers.

Any suggestions for improvement of this book are most welcomed, thanks.

“It is not what We do for you but what We will teach you to do for and by yourselves that will eventually make you successful beings in the society”
