The Present Perfect tense

- The Present Perfect tense is used to talk about actions that have just taken place.
- This tense uses ‘**has**’ and ‘**have**’ as helping verbs. ‘**Has**’ is used with singular nouns and the pronouns while ‘**have**’ is used on plural nouns and the pronoun ‘I’.
- The helping verbs ‘**has**’ and ‘**have**’ are followed by the Past Participle tense of the main verb.

has/have + Past Participle tense of the main verb

For example:

1. Janat has bought a new motorcycle. (buy)
2. Willy and I have gone to the car bond to buy new cars. (go)
3. She has driven back home alone. (drive)
4. I have rung the bell clearly. (ring)

4. The cyclist is ringing the bell.
5. Benjamin repaired his car engine.
6. Ruth is cleaning the windscreen now.
7. Benito drove to town.

The Passive Voice in the Present Perfect tense

In Passive Voice, we begin with the ‘object’, followed by the verb and then the ‘subject’. The Passive Voice in the Present Perfect tense uses helping verbs, ‘**has been**’ or ‘**have been**’ which are then followed by the main verb in its Past Participle form.

For example:

1. Mr. Mopmop has bought a new bicycle.
A new bicycle has been bought by Mr. Mopmop.
2. She has broken the driving mirror.
The driving mirror has been broken by her.

8. Apply grease to the chain before riding.

Section 1.4: Comprehension

Activity 1.16: Passage

Read the story below and answer the questions that follow.

I cannot forget the day my father brought home our first vehicle. The memories of that day still run through my minds. My father used to come home early, quietly and looking very tired. That day he returned late in the night. The hooting at the gate took all our attention. Of course we could not guess who was at the gate. I rushed to the gate to check, only to see my great father behind the steering. I opened the gate and he cruised in. When he parked, I asked him and he confirmed it was our new ride.

Every part of the car was new. The steering and the seats were amazing. The tyres were inflated hard and the indicators shone brightly. Indeed, the grey Toyota Premio was beautiful.

Very early in the morning, I checked the car again to confirm the parts we had learnt about at school. Then I asked my father to open the bonnet for me to see other inside parts. He showed me the engine. According to my father, it was the new model. The radiator was full of water, I touched the water and it was warm. My father showed me other parts like battery, the oil filter and the air filter. My father promised to teach me how to drive soon. That would be really interesting. I cannot wait for that day to come. I thank God who gave my father a brand-new car.

Questions

- (a) What memories does the writer have?
- (b) At what time did the father return that day?
- (c) What did the writer's father bring home that day?
- (d) What type of car was it?
- (e) Why do you think this family was excited that day?
- (f) Apart from the steering, which other parts did the writer

- check on the car that night?
- (g) Why did the father open the bonnet?
 - (h) Mention one part of the car that the writer saw under the bonnet.
 - (i) Give another word or group of words to mean cruised as used in the story.
 - (j) Suggest a suitable title for the story.

Activity 1.17: Passage

Read the story below and answer the questions that follow.

It is always wise to do a few checks on the car before one starts driving it to the road. My mother and I faced it rough on our journey to Kivu, our home village.

What we were bothered about was having enough fuel in the car. Next, we ensured our spare tyre was in its right place. We thought that was all for our journey. We did not mind to check on other parts of the car like the tyres, the engine and the battery.

Shortly after leaving home, we noticed something unusual with the car. Before my mother could park it on the roadside to find out what the trouble was, the engine went off. It could not ignite anymore. We looked for a nearby mechanic. When he came, he said he was going to jumpstart it. This was a new term for me. Mother explained that it meant to restart the car by connecting to the battery of another car. He checked the engine and said the engine oil level had dropped. He added part of the oil he had carried in his car. More water was also added to the radiator.

Lastly, he checked the tyres and realised one of the rear tyres had a sidewall damage. It also had some damage on the treads. After changing the tyre, the mechanic helped us to adjust the side view mirrors. We paid him and ignited the car to continue our journey.

Questions

- (a) Where were the writer and his mother going?
- (b) Why do you think it is wise to check the car before driving it?
- (c) What didn't the writer and his mother check on the car before they started the journey?
- (d) What happened to their car along the way?
- (e) Who helped them to fix the mechanical problems on the car?
- (f) How did the mechanic make the car restart?
- (g) Give another word or group of words to replace these underlined words in the story:
 - (i) restart
 - (ii) rear
- (h) Why was the car tyre changed?

Activity 1.18: Poem

Read the poem below and answer the questions that follow.

The wonderful invention
Full of wonders indeed
Sweeping through the road
All parts together to make a whole
So wonderful the car is!

Just a key and it is active
The steering to give the right direction
A little step on the pedal
And it is ready to accelerate
How amazing the car is!

Come rain, come sunshine
The driver is ready to ignite
Its treads on the tyres

Can manage the rough roads
The car, so fantastic it is.
Fuel is the only food
Engine oil to keep it in shape
Pressure in the tyres and you're good
And the honk that hoots out loud
The car, you are perfect.

(Mate Ben)

Questions

- (a) What wonderful invention is mentioned in the poem?
- (b) Where does it move?
- (c) How useful is the key to the car?
- (d) What determines its direction while moving?
- (e) When is the car ready to accelerate?
- (f) How does the driver make the car to stop?
- (g) Mention one thing in the poem that makes the car good.
- (h) Why is engine oil important to the car?
- (i) Who is the writer of this poem?
- (j) How many stanzas does the poem have?
- (k) Suggest a suitable title for the poem.

Activity 1.19: Poem

Read the poem below and answer the questions that follow.

I thought I would be happy always
To have you by my side
I thought you meant heaven to me
Oh no! I was very wrong.

I thought I would never regret
You now make me wish
I had been born those days

The days of the horse and the cart.

My car, oh my dear
Fuel is like water to you
You consume it without sparing
What is wrong with your engine?

Always in Mr. Macaca's garage
When it is a punctured tyre
He asks me for so much
Before he fixes the tyre.

Again the transmission is at fault
Mr. Macaca gets his spanner
Straight to the bonnet to check the fault
And then a huge bill he gives me.

Jamenoka

Questions

- (a) What did the writer think at first?
- (b) Which days does the writer wish for?
- (c) How does his car consume fuel?
- (d) Where does he take the car for repair?
- (e) What does the mechanic do to the punctured tyre?
- (f) How does the spanner help the mechanic?
- (g) Why does Mr. Makanika open the bonnet?
- (h) Give another word or group of words to mean each of the words below as used in the poem:
 - (i) consume
 - (ii) fixes
- (i) Suggest a suitable title for the poem.
- (j) In how many stanzas is the poem written?

Sub-topic 1B: Equipment used in vehicle repair

Section 1.5: Vocabulary

Activity 1.17

Read these words

spanner

tester

sandpaper

oil

screw driver

grease

toolbox

hand tool

pliers

file

wire

hammer

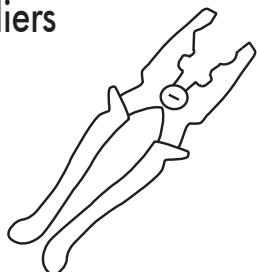

carjerk

saw

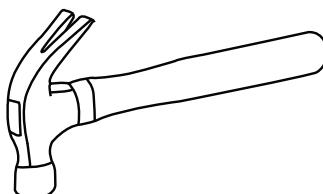

Activity 1.18

Study the pictures of the tools/equipment used in vehicle repair and tell their uses.

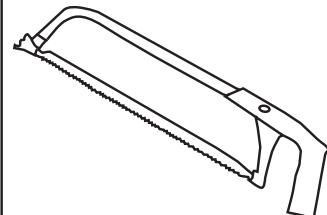

pliers

hammer

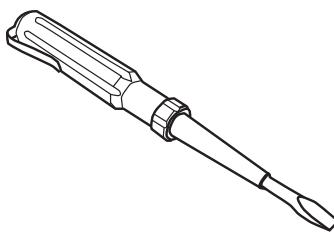

saw

screwdriver

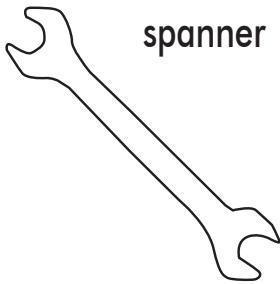

tester

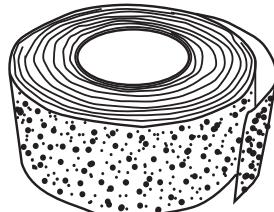

oil

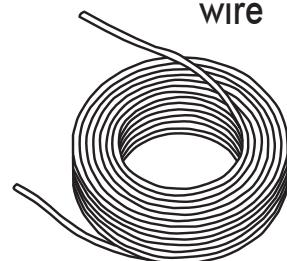

spanner

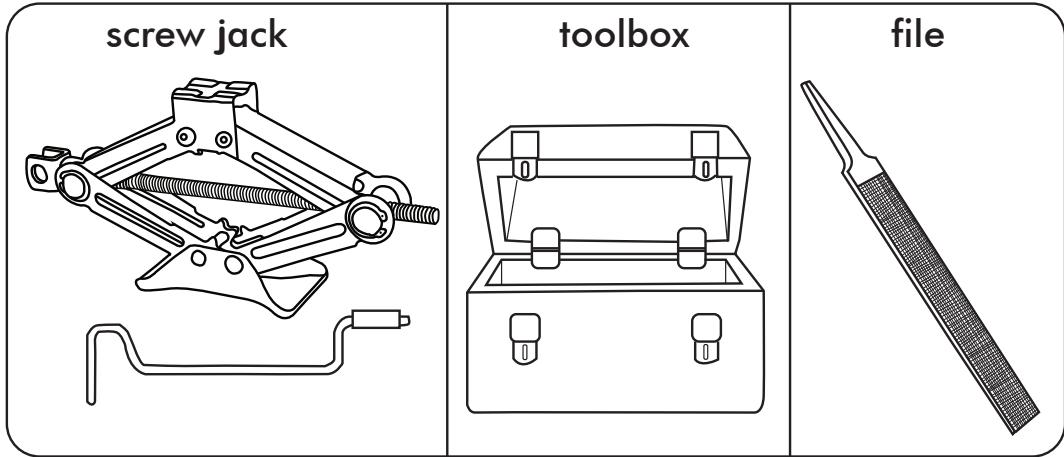

sandpaper

wire

Section 1.6: Conditional If - clause I

- A conditional clause for example If I, states that a certain condition has to be fulfilled before a certain result is obtained.
- If talks about the possibility of something happening provided a named condition is fulfilled.
- We use two tenses when using If clause, that is, Present Simple tense and Future Simple tense.
- The Present Simple tense is used in the ‘if clause’ while the Future Simple tense is used in the “main clause”.

If + Present + Future

Example

If my father gets money, he will buy a new car.

if clause

main clause

The use of ‘if’

When using ‘if’ at the beginning of the sentence, a comma is applied immediately after the if clause.

For example:

1. Martin will get a pair of pliers. He will cut the wires.
If Martin gets a pair of pliers, he will cut the wires.
2. Solomon will see the toolbox. He will remove the screwdriver.
If Solomon sees the toolbox, he will remove the screwdriver.
3. My car will break down. I will take it to the garage.
If my car breaks down, I will take it to the garage.
4. I will grease the chain of my bicycle when I get grease.
If I get grease, I will grease the chain of my bicycle.

Activity 1.19

Rewrite the following sentences as one beginning with If

1. The mechanic will repair the bicycle. Father will take the bicycle to the garage.
2. You will buy a carjack. You will go to town.
3. When I get money, I will buy a new tester.
4. The boy will bring the toolbox and the mechanic will pick a saw.
5. Get the spanner and loosen the wheel nuts.
6. Patricia will use a sandpaper and make the metal smooth.
7. I will not turn on the headlamps and I will not see at night.
8. Allan will not fasten the seat belt. He will get serious injuries in case of any accident.
9. Bonny will go to the city. He will buy spare parts for the vehicles.

The use of ‘... if ...’

When using ‘if’ in the middle of the sentences, no comma is applied between the two clauses.

For example:

1. If Byenky drives carefully, he will reach home safely.
Byenky will reach home safely if he drives carefully.

2. She will sharpen his tools. She will get a file.
She will sharpen his tools if she gets a file.
3. You will not pay for the service. The mechanic will not give you back your motorcycle.
The mechanic will not give you back your motorcycle if you do not pay for the service.

Activity 1.20

Rewrite the sentences below as instructed in the brackets.

1. If you drive fast, you will cause an accident. (Begin: You will ...)
2. Jovanisi will attend the burial. She will see the deceased. (Use: ... if ...)
3. Ntambi will get a hammer. He will hit the nails. (Begin: Ntambi will hit ...)
4. I will wait. My car may be repaired. (End: ... I wait.)
5. If I don't go to the garage, the mechanic will not work on my car's broken wheel. (Begin: The mechanic ...)
6. When I read hard, I will pass the engineering course. (Use: ... if ...)
7. You should come early and see the rallies. (Begin: You will ...)
8. Make an appointment and meet the mechanic. (Rewrite and end: ...appointment.)
9. Mukisa will get a tester and test for the presence of current in the battery. (Use ... if ...)
10. If I get money, I will repair my car. (Use... if ...)

Section 1.7: The use of ‘in order to and so as’

‘in order to’ and ‘so as’ are used to introduce the purpose or reason for doing something. These structures are used in the past simple and present simple tense. They are used in the same way.

For example:

1. • The lady went to the mechanic. She wanted to repair her car.
 - The lady went to the mechanic in order to repair her car.
 - The lady went to the mechanic so as to repair her car.
2. • Mutema saved his money. He wanted to buy a carjack.
 - Mutema saved his money in order to buy a carjack.
 - Mutema saved his money so as to buy a carjack.

Activity 1.21

Join the following sentences using: in order to and so as

1. Joy goes to the garage. She wants to repair people's cars.
2. My mother gave me money. She wanted to make me happy.
3. The driver went to the park. He wanted to get passengers.
4. I went to town. I wanted to buy a spare tyre for my car.
5. She opened the car boot. She wanted to remove her luggage.
6. Matilda went to the technical school. She wanted to learn mechanical engineering.
7. We borrowed files from the garage. We wanted to sharpen our pangas.
8. Alosious used a saw. He wanted to cut the metal.
9. The driver braked. He wanted to save the dog that was crossing the road.
10. The mechanic got oil. He wanted to lubricate the vehicle parts.

Section 1.8: The use of ‘in order to’

When using this structure at the beginning of the sentence, a comma is applied immediately after the first clause.

For example:

1. He bought a toolbox. He wanted to keep his tools safe.
In order to keep his tools safe, he bought a toolbox.
2. Henry borrowed a spanner. He wanted to loosen the car bolts and nuts.
In order for Henry to loosen the car bolts and nuts, he borrowed a spanner.

Activity 1.22

Rewrite the following sentences as one beginning: In order

1. Mercy went to the clinic. She wanted to buy some vitamin C tablets.
2. Matthew is taking an engineering course. He wants to become a mechanic.
3. The driver switched on the headlamps. He wanted to see what was ahead.
4. He went to the petrol station. He wanted to buy fuel for his car.
5. Mark goes to the internet cafe. He wants to know the latest products on the market.

Section 1.9: Comprehension

Read the following passage and answer the questions that follow.

‘WELCOME TO KK AUTO GARAGE’ is the big signpost that welcomes you to Kagolo’s garage. It is located in Sonko Division, behind the central market.

In his garage, he has a special room where he sells different parts and tools used in vehicle repair. While in this shop, the eyes never cease to look at amazing things. He displays the items according to their functions. The spare parts of the engine are put in the middle. Others like wipers, mirrors and spanners are laid out separately.

Special equipment like pliers, wire cutters, screwdrivers, wrench sets and power tools are kept in their special boxes to protect them from damage. They are arranged in their tool belt which he also sells to buyers. Other tools are kept in the toolboxes. He also has his special toolbox which he uses when repairing vehicles.

Outside the shop, he has tyres for big and small cars. When a customer brings a car for the tyre to be changed, he uses the jark to raise the car off the ground. Then he uses the impact drill to remove the tyre and replace it. The wheel wedges help him to keep the car in one position. His shop is always busy with customers. He is liked because he treats them fairly. “KK Auto Garage, our car clinic,” is what everyone calls his shop.

Activity 1.24: Passage

Read the following passage and answer the questions that follow.

During the COVID-19 lockdown of 2021, Shakin found life very boring at home. He woke up every morning to do nothing. Watching Nickelodeon television was the major work he had since schools had been closed.

One day, he made up his mind to look for something to do in the nearby trading centre. He went to Sande's garage and said he wanted to learn some skills about vehicle repair. The following day, his first day as a mechanic, Sande told him to remove old wipers from a car. However, Shakin did not even know what wipers looked like. Sande guided him to use a pair of pliers. He slowly removed the wipers but failed to fix new ones.

Then Shakin was to inflate a tyre of a motorcycle, which he did easily. Time came to remove a punctured tyre and fix the spare tyre. "Sir, are we going to turn the car upside down first?" asked Shakin innocently. Everyone laughed and Shakin got puzzled. Sande told him that they needed a jark. He was sent to fetch the jark. Poor boy had never seen one. He thought jack was some strong man who could lift the car. The small size of the jark surprised Shakin. "This thing is very small, the car could break it and fall,". said Shakin. Shakin was again sent for the toolbox. Shakin asked why it was very heavy and was told it keeps most of the equipment needed in vehicle repair.

Shakin was shown the screwdriver and the wrench which are needed to replace tyres. He was amazed to see the jark lift the vehicle. Shakin has become a very serious mechanic at this garage.

Questions

- (a) When did Shakin go to Sande's garage?
- (b) Why was life very boring for Shakin?
- (c) What was his first task at Sande's garage?

- (e) Which activity did he do very easily?
- (f) Why was Shakin puzzled about the jack?
- (g) Why was Sande's toolbox heavy?
- (h) Which tools were used to replace the tyre?
- (i) Suggest a suitable title for the story.

Activity 1.25: Passage

Read the following passage and answer the questions that follow.

My Mother's Car Gets a Fault

My name is Joy. I am in primary five at Ntabalo Primary School. One day my mother and I woke up very early in the morning. I was going to school and my mother was going to her place of work.

After preparing ourselves, my mother went to the garage to pick her car so that we could set off on the journey. On reaching the garage, she noticed a leaking engine because of the oil that had spread all over the floor. When she checked the fuel tank, it was also leaking and the fuel was almost drained from the tank.

My mother got worried about her car's condition. She immediately called the mechanic to come and repair it. She

also got a boda-boda to rush me to school so that I would be in time for the lessons. When the mechanic came, he got tools from the toolbox, repaired my mother's car and then asked for forty two thousand shillings for the service. My mother pulled out the money from her purse and paid the mechanic. She then dropped the mechanic to his garage and headed to work.

Activity 1.26: Poem

Read the poem below and answer the questions that follow.

Poor mechanic!
Always waiting for cars to repair
At times taking on more than he can bear
Handling tool after tool
Dressed in filthy clothes like a fool.

Tirelessly he always works
Under the huge car he lies

Cutting and connecting every wire
Tightening after loosening every nut
Just to bring that big car back to life.

Sometimes I really wonder
That man called a mechanic
He doesn't mind oil leaks on his face
All he cares about is to fix the mess
Like a great surgeon in the theatre.

And finally when the work is done
Smiles are all over the owner's face
The key goes straight into the ignition
To drive off at ninety kilometres per hour
After a small pay to the poor mechanic.

Dante

Activity 1.27: Poem

Read the poem below and answer the questions that follow.

That vehicle!
A wreck it was
Drawn from the scene by a crane
Straight to the busiest garage
For the mechanic to fix
And repair its crashed body.

That vehicle!
Very heavy it was
Crashed beyond repair
But towed to the nearest garage
For the repairer to mend
And make it move again.

That vehicle!
So hard it was to mend
But his toolbox in hand
Ready for the job he was
The wreck became a good car again.

Stander

Activity 1.28: Poem

Read the poem below and carefully answer the questions that follow.

Car! Car!
What an important object you are!
With a variety of useful parts
The steering wheel for control
Seat belts for keeping me safe in case of an accident
And the headlamps for lights in the dark.

Car! Car!
An object with four strong wheels holding it
Enabling it to move from place to place
With the trunk at the back of it
To carry luggage to its destination
And wipers
To clean or wipe the windscreen.

Car! Car!
Useful to all mankind
Carrying people to their destinations
Carrying patients and casualties to hospitals
Transporting farmers' produce to the market centres
And earning car dealers lots of money after sale.

Activity 1.29: Poem

Read the poem below and answer the questions about it.

Whether it rains or shines,
I don't need to mind,
It is my job after all,
Under the vehicle I lie.

With a spanner and a jark,
To remove car tyres,
All my body dirty with engine oil,
Still I don't mind.

Always dressed in a dirty overall,
You don't want to touch me,
For you think I am dirty,
But who cares,
After all pockets are full of coins and notes after work.
